Shell Pre site Characterization Question 7.pdf

Hanh,

Please find attached a document prepared by Shell in response to Question #7 (Pre-site characterization) from the list of questions provided to Shell by EPA back in March. The focus of our response centers on why existing measures undertaken and regulatory necessity for pre-site characterization should supplant the necessity from Section II.A. 14 (d) (1) of AKG-28-4300 for the described Phase I Assessment of the proposed environmental monitoring plan (EMP). More documents on the remaining questions will be forthcoming.

I look forward to discussing with EPA any questions or comments on the attached, plus the additional forthcoming documents.

Sincerely,

Greg Horner

Shell

Offshore Regulatory Team Lead

Subject: EPA's questions for March 26 meeting

In preparation for the March 26 meeting, EPA has prepared the attached list of questions regarding the draft Geotechnical NPDES General Permit for discussion. We look forward to seeing you next week.

Hanh Shaw, Manager

Oil, Gas and Energy Sector

U.S. EPA, Region 10
